aroma therapy *collection*

Discover the Softlife aromatherapy pillow series, specially designed to improve the quality of your sleep and provide a relaxing sleep experience! With four different aromatic options, these pillows promote peaceful sleep by soothing both your body and mind. The sprays made from real aromatherapy oils, included with the pillow, are applied to the pillow before sleep to help improve your sleep quality.

Anti-Snoring
Memory Foam Pillow

The quality of your sleep is extremely important for your health. Snoring can negatively impact the rest of the night for both you and your partner. This is where the anti-snoring memory foam pillow comes in!

Our pillow makes it easier for you to breathe by keeping your head and neck in the correct position. This helps you breathe more comfortably and significantly reduces snoring issues.

CPAP *pillow*

CPAP pillow is a specially designed pillow for individuals using CPAP machines to treat sleep apnea. It features unique contours or cutouts that accommodate the CPAP mask and tubing, preventing the mask from being displaced during sleep. The pillow helps users maintain a comfortable sleeping position, reduces mask pressure on the face, and minimizes air leaks. Its ergonomic design supports the head and neck, making it easier to sleep on the back or side while using a CPAP machine, ultimately improving the effectiveness of sleep apnea therapy.

coolmax collection

Softlife Coolmax pillows are specially designed to prevent the common issue of sweating during sleep. The gel layer applied to the area where your head and neck rest creates a temperature difference, keeping you cool and comfortable throughout the night. With no heat exchange, your sleep remains refreshing even on the hottest days.
